

CLEARY UNIVERSITY

February 13, 2015

To Whom It May Concern:

It is my pleasure to confirm the University's use and satisfaction with Fielek Group Builders LLC and to offer our endorsement and recommendation of them.

The company made a highly competitive bid to renovate and update an approximate 20,000 sq. ft. facility for office, conference, and meeting space. The final product was opened to rave reviews at a ribbon-cutting and "naming" ceremony in which many of the university supporters commented on the excellent work that had been done.

There are many characteristics of Fielek Group Builders LLC, not the least of which is the ease of working with the principals, Julie and Matt Fielek. We felt they were partners in our project rather than contractors. We were especially impressed with the following:

- The caliber and quantity of sub-contractors available to Fielek Group Builders LLC was impressive. Workmanship was outstanding, and it was apparent the sub-contractors had great respect for Fielek Group Builders LLC and the work standards expected.
- As a not-for-profit, we were particularly appreciative of their budget sensitivity, enabling us to complete the project within budget.
- Our project had particular time sensitivity and they delivered project completion as promised.
- They dealt quite well with changes and minor modifications that emerged during the project, always demonstrating flexibility, cooperation, and good humor.
- Their follow-up processes enabled them to be two steps ahead of the university as we were nearing project completion, lessening anxiety, and allowing for smooth attention to "punch list" items.

We anticipate we will use Fielek Group Builders LLC for additional projects at the university and have concluded they have significant capacity to successfully tackle small and large projects alike.

If we can be of further assistance, please contact us.

Sincerely,

Thomas Sullivan
President
